VOCUS App: ✦ sms

VOCUS SMS is an advanced software system that utilizes the latest technology to make safety management simple, meaningful, and seamless. VOCUS SMS is the ideal solution for forward-thinking safety professionals seeking to go beyond compliance.

- **Simple** - Clean design and user interface makes it easy to submit reports, investigate events, and conduct audits
- **Meaningful** - Robust data classification and cost tracking provides actionable insights.
- **Seamless** - Integrates with other software including FlightRisk, FDM/C-FOQA, and FAA ASIAS

Simple.   Meaningful.   Seamless.
